SUMMARY

A detail-oriented and analytical Computer Science graduate with strong problem-solving skills and expertise in full-stack web development, network configuration, and system installation. Passionate about leveraging technology to build scalable solutions, with hands-on experience in React, JavaScript, Node.js, and WordPress. A strategic thinker, collaborative team player, and quick learner with a strong work ethic.

EXPERIENCE

*Riconets Ventures, **Industrial Attachment***

May 2024 - Jul 2024

Web Development: Built Matis Project, a Matatu Sacco Management System using React for Frontend and Node.js/MySQL for Backend. Developed WordPress websites (blog posts, UI design, maintenance). Network & System Installation: Configured KenyaEMR at Sisto Mazzoldi Hospital helping with server-client setup and troubleshooting. Installed Windows OS, software (Kaspersky, MS Office), and resolved network issues such as IP conflicts and proxy configs.

EDUCATION

Egerton University

*Bachelor of Science • **Computer Science** • 2021 - 2025*

LICENSES & CERTIFICATIONS

AWS Certified Cloud Practitioner

SKILLS

JavaScript (ES6+) • React.js • HTML5 • CSS3 • Node.js • Express.js • MySQL • RESTful API Integration • WordPress (Theme Design, Blog Management, Content Updates) • Server/Client Configuration (KenyaEMR)
